MODERN RESTROOM CUBICLE AND LOCKER SOLUTIONS BY GREENLAM

— Designed in London —

SETTING THE *benchmark* IN EXCEEDING EXPECTATIONS

Greenlam is among the world's top 3, Asia's largest and India's No.1 surfacing solutions brand. With its presence in over 100 countries, Greenlam has focused on developing quality products with a great passion for innovation. It offers end to end surfacing solutions spread across decorative laminates, compact laminates, interior and exterior clads, restroom cubicles & locker solutions, decorative veneers, engineered wooden floors and doors, and plywood.

With four state-of-the-art manufacturing facilities in the country located at Behror (Rajasthan), Nalagarh (Himachal Pradesh), Prantij (Gujarat) and Tindivanam (Tamil Nadu), it is the first choice of architects, interior designers, and homeowners when it comes to transforming living spaces.

Greenlam aims and acts to save and preserve nature in its pristine form by ethical sourcing of its raw materials from the world over.

Coupled with this, Greenguard Gold, Greenguard, GreenLabel (Singapore), NSF certified and are Anti-bacterial, thereby ensuring they are environment friendly and safe to use. With its extensive presence of sales team and channel partners globally, Greenlam is just a call away to give your spaces a fresh look.

Sturdo
RESTROOM CUBICLES & LOCKERS

Long known for its incredible range of products that are strong, robust and aesthetically appealing, Greenlam Sturdo now introduces a fresh, new line up of Restroom Cubicles and locker solutions. This exquisite range has been designed by eminent international designers, keeping in mind, the needs of the Indian consumer and environmental challenges. The best in class range is sturdy, durable and suitable for dry as well as humidity prone areas such as fitness clubs, sauna rooms, swimming pools, retail environments, hospitals and sport centres.

Each piece is an amalgam of architectural innovativeness and scientific engineering down to the last detail. Discover the cutting edge world of Restroom Cubicle Solutions, from the house of Greenlam, where art and science express themselves in a range never seen before!

“Form follows reason” – however, a sensitive application of reason can result in designs with a greater depth and inner beauty. Drawing inspiration from this Greenlam Sturdo’s latest collection of Restroom & Locker Solutions is designed to strike a balance between elegance, impact, durability, current trends and most importantly hygiene.

The new collection was co-created by Greenlam Design Team in partnership with our design partners Will Watson, UK.

OUR PARTNERS IN *setting trends*

Product Designers Tony Wills, Brian Watson and Philip Hall have had a long-standing collaboration, since 2003. Their work can be found in many iconic buildings in the UK – from Heathrow Airport to the British Museum – and in catalogues developed by global furniture and architectural hardware manufacturers. A skillful balance of innovation, aesthetics and engineering is key to everything they do.

WET vs DRY RESTROOM SOLUTIONS

Greenlam Sturdo paves the way for exceptional hygiene, convenience, and sustainability with its dry restroom solutions. It's innovative and user-friendly approach makes it the perfect choice for modern day eco-conscious individuals.

Dry System

Wet System

Greenlam Sturdo stays class apart due to its usage of dry restroom system.

	WET SYSTEM	DRY SYSTEM
Cleaning and Maintenance	Difficult to clean as dirt and stains settle down due to porous surfaces.	Easy to clean as no wet work is involved and absence of corners doesn't let dust accumulate on floor.
Ventilation	No means of natural ventilation provided.	Proper air ventilation access provided in all designs.
Aesthetics	Replacement becomes difficult as tile designs can go out of production.	Vibrant spaces as the range comes in different colours and patterns.
Space Utilisation	Loss of space due to usage of 6" x 6" thick walls resulting in a loss of 3 sq.ft. of area per partition.	Economy of space as partition panels are only 12mm or 18mm thick.
Building Load	Load of building becomes high due to brick work.	Economy of load as partitioning systems reduce the load on building.
Water Conservation	Requires huge water consumption.	Zero water usage in installation.
Ease to service	Tough to service due to plumbing and sanitation issue.	Ease to service.
Quick on-site installation	Requires lot of time and manpower	Quick installation due to pre-fabricated system hence less time

PROOF OF EXCELLENCE

At Sturdo Restroom Solutions, we take pride in our heritage of excellence, fostering a commitment to quality that sets us apart. We prioritize safety, ease-of-application, and swift installation, while offering a wide range of products to help customers maintain beautiful restroom interiors.

PRODUCT CONSTRUCT

A Newer Greenlam Sturdo are the New Age Restroom Cubicles with wide range of products with premium and trendy aesthetics along with best-in-class finesse catering all segments of users, hence filling the Product gaps in a segment. Designed by Team of renowned International designers. Sturdy, durable and suitable for dry as well as humidity prone areas such as fitness clubs, sauna rooms, swimming pools, retail environments, hospitals, and sport centers. It is conceived and engineered to complement high end architectural innovative techniques and easy installations. Right from a door lock to the coat hook, each range accessory is a designed masterpiece.

CONSTRUCTION OVERVIEW - CUBICLES

PILASTERS

All pilasters are made of either 12mm or 18 mm thick Greenlam HPL compact panels. The pilasters are main supporting structure of any restroom cubicle as the doors and dividers are affixed to the pilaster using appropriate installation mechanism. Pilasters are usually mounted on the top rail or rested on the floor using legs or box-up SS skirtings.

In ceiling mounted model, pilasters are affixed to the mild steel rectangular plates and the plates are attached to the top rail. The pilasters are affixed with door stoppers to facilitate proper closure of doors.

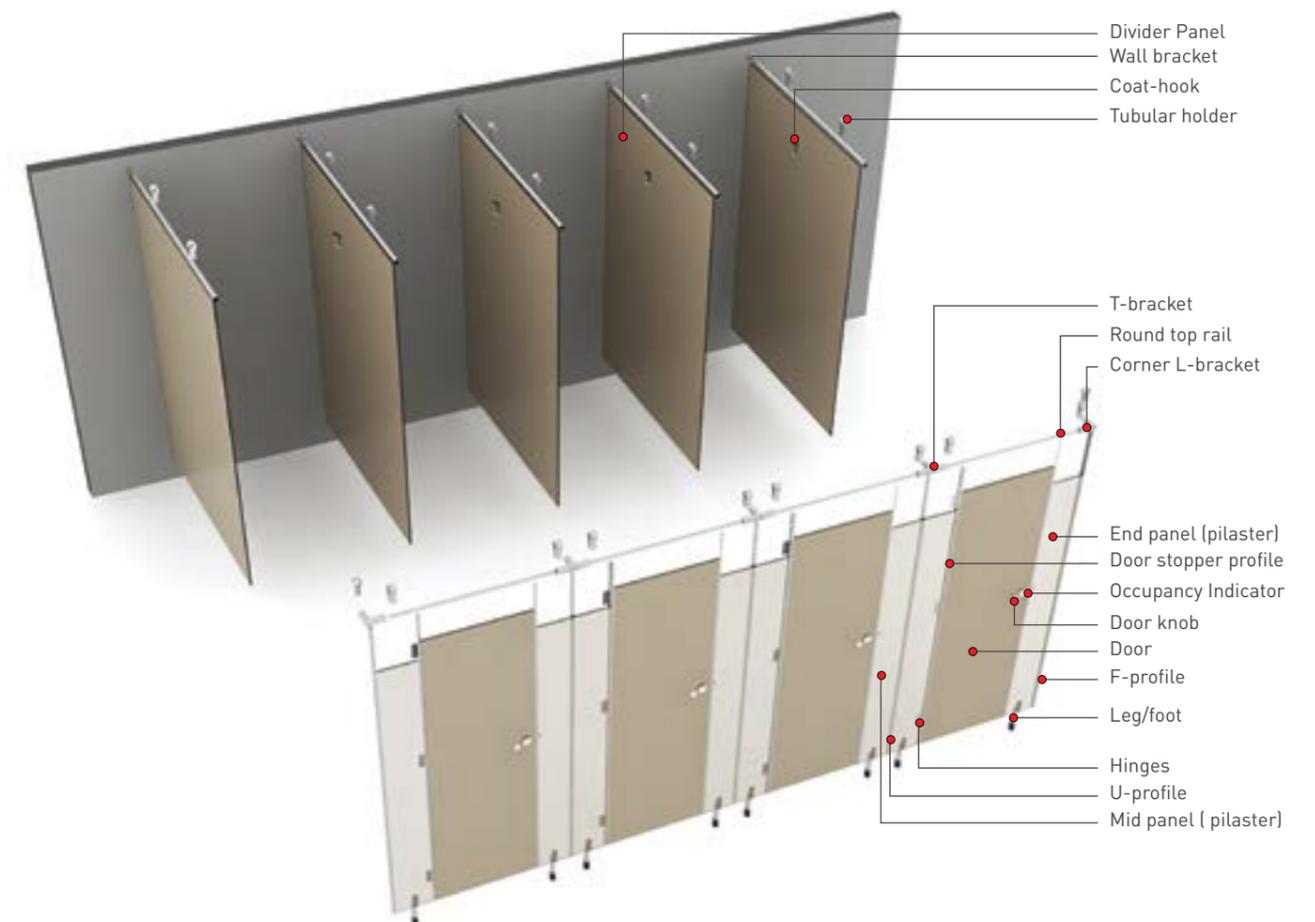

DOORS

All doors (600mm to 700mm wide) are made of 12mm or 18mm thick Greenlam HPL compact panels. All the doors have beveled edges for increased safety and neat aesthetics. Each door is supported by 3 or more gravity hinges or spring-loaded butt hinges (made of either SS or Nylon) affixed to the pilasters. A coat hook and slide bolt with indicator set are provided with each door.

DIVIDERS

Dividers are component of the restroom cubicle which ensure privacy of the users. All intermediate partitions or dividers are made of 12mm or 18mm thick Greenlam HPL compact panels. Generally, they are affixed with the mid panels and end panels with wall U-channel (made of SS or Aluminium) at their vertical ends to provide required stability.

CONSTRUCTION OVERVIEW - CUBICLES

NECESSARY FIXING HARDWARES

HINGE

It is a movable joint or mechanism which is used to hang the door on the pilaster in such a way that door can swing on its axis to open or close. Greenlam Sturdo generally use two types of hinges in its cubicles: Spring Loaded Butt Hinge and Gravity Hinge along with their covers.

F-CHANNEL

It is used to join an end pilaster (a pilaster at the end of any cluster) with the divider.

THE TOP RAIL

It is used to hold the pilasters in any restroom cubicle cluster from the top to keep the cubicle aligned.

SHOE BOX

Box-up fixtures are rectangular ss structures which support the pilaster through there entire width. Unlike legs, height of box-up fixtures cannot be adjusted.

U CHANNEL

It is used to affix an HPL compact panel vertically on any wall or any other compact panel.

ACCESSORIES OF RESTROOMS

DOOR KNOB

It is an accessory mounted on the outside of the cubicle door used to push or pull the door.

FOOT

Legs are bottom support fixtures which hold the pilaster panel to provide stability to floor-mounted models. Legs have an adjustable height of 45-150 mm from the floor level.

OCCUPANCY INDICATOR

It is a mechanism which signals whether the cubicle is occupied or available.

COAT HOOK

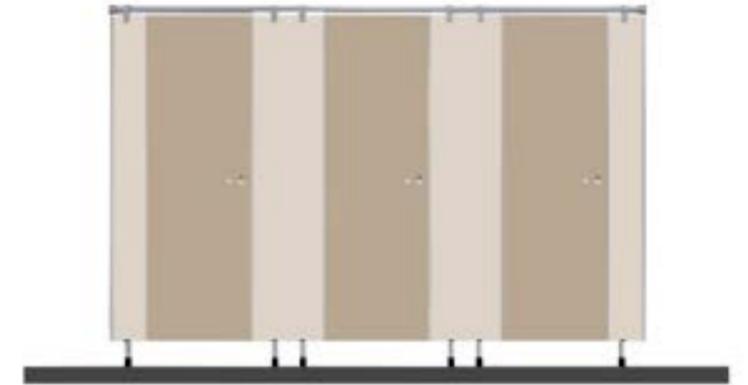

It is an accessory mounted on the divider inside the cubicle which can be used to hang clothes and light bags.

CONSTRUCTION OVERVIEW - CUBICLES

TYPES OF SITE CONDITIONS FOR INSTALLATION.

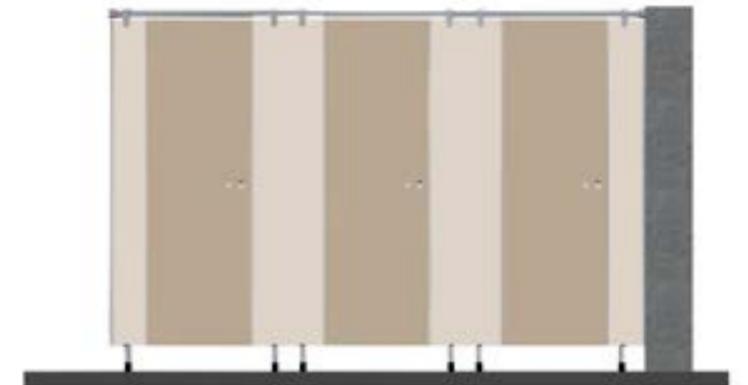

ONE SIDE CLOSED

When an installation site doesn't have wall on either side.

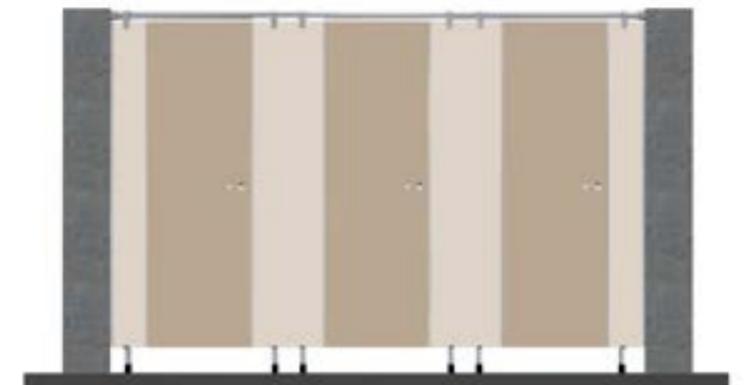

TWO SIDE CLOSED

When an installation site has wall on one side and open from the other side.

THREE SIDE CLOSED

When an installation site has walls on both sides. Models: All Models

FUSE-IN

MAXIM

MAGNA FUZE-IN

The Fuse-In Luxury Washroom Cubicles are a marvelous fusion of aesthetics, simplicity and an absolute respect for the need for privacy. The range is minimalist in design, with crisp, sharp cuts and a newly introduced double Setback bent foot that gives this luxury range a stylish and "float in the air" appearance. The elegance of the Fuse In range is further amplified with the suave dual coloured hand in glove hardware, seamless doors with a laminated top rail that matches the door and gives a crisp, one-look finish. The sleek, dual finish foot on the dividers add that extra panache to the cubicle, while ensuring that your client's need for space is never compromised.

These less-is more luxury range of cubicles are engineered with a host of design features in mind. The fittings are dual colour coded - be it the coat hooks or the laminated top rail - seamless and stylish is the word!

Soft closing slide bolts, vandalism resistant fittings, flexible legs for great ground clearance, high quality panel divider extrusions with flush screw camouflage, adds the extra oomph by giving a "no-screw" appearance to each engineered space. The 600 mm wide doors are clad with a 12mm laminate and anti-noise rubber padding as well as gravity hinges in grade 316 Stainless steel to ensure that "me time" stays truly that!

EXTRAVAGANT. RICH. LUXURIOUS.
PRIVATE SPACES IN DOUBLE TONE ACCESSORIES ARE MEANT TO
MAKE A STATEMENT.

MAGNA FUZE-IN

MAGNA MAXIM

The Maxim Premium Washroom range of cubicles are a masterstroke in intelligent design. These seamless, full height flush-to-the-ceiling cubicles are a first in the industry. Each cubicle, is a continuous, monolithic design with the lowest ground clearance to enhance privacy – another first of its kind!

The graceful fluidity of the design is amplified by design science. The all new door stiffeners and in-built door stopper with slide bolt function blends well with the sleek exterior and minimalist interiors. Top rail interior LED lights give a suave finish, while fittings make a sophisticated statement. The dividers have a dual compact design look with low clearance adjustable legs; the fittings and fixtures are flush covered and resistant to vandalism. In short, this range redefines the concept of private spaces!

SEAMLESS. SLEEK. SOPHISTICATED.
WE MAKE PERSONAL SPACES STAND TALL AND RESPECT PRIVACY.

AIR WHIRL

Our Whirl restroom cubicles are designed with only one thought in mind. To give private spaces a new design language. Which is why, this premium range has all the makings of sophistication and style.

The cubicles are sleek, fitted together seamlessly. To amplify the fluidity of unrestrained space, we designed a "no top rail" look. The fittings are of a premium finish be it the soft closing locks, the sleek double coat hook, or the chrome finish skirtings on the panels. What you see is the sheer elegance of space nuanced by artistic details.

SUAVE. SUBTLE.

ASTER

COLLECTION

ORION

NOVA

LEO

ASTER ORION

The Orion Range stands out in more ways than one. A “don’t shout in the face” minimalist design veils the rather robust and strong structure. Sleek, affordable and dependable are givens, but what is surprising in the smart design aesthetics with which the range is created.

The all new Divider Setback legs for one, gives the impression of “hidden legs” – there but not visibly there! While the twin leg design in the mid panel with zero frontal coverage amplifies minimalism and accentuates sturdiness. The Top Rail connector are an all – new again, giving a sleek look while ensuring that the panels stand strong and tall. Matching Double Coat hooks and strong SS profile grips hold the laminates in place, which stands way above the ground on adjustable legs. All in all, a design marvel that gives a timeless edge to restroom cubicles.

THERE IS SOMETHING TIMELESS ABOUT CHROME FINISHES.
THE LESS SAID, THE MORE.

ESSENTIA

COLLECTION

SERENE

SPLENDID

ESSENTIA SERENE

SERENITY IS A STATE OF MIND
BORN FROM A LOVE FOR BASICS.

The Serene range of restroom cubicles has just about the right mix of everything. Vibrant yet soothing colours, sturdiness that's pocket friendly, durability that is almost timeless!

The overall look comes alive with adjustable legs that give higher ground clearance, while the vibrant colours matched with traditional coloured top rails and screw-less fittings gives a "so happy to be here" look! Colour coordinated coat hooks, and profiles gives a glamorous feel, while the tamper resistant fittings simply adds more peace to this wondrously serene collection!

COCOON SAFARI

The innovative Safari Restroom cubicles is a unique world of adventure, fun and imagination. Specially designed for kids, this range is based on the "Jungle Safari" theme – to pique the minds of the little ones and encourage their learning instincts.

The panels are digitally printed and mounted with Metal Z brackets to keep them strong and secure. These can be easily replaced for other customised themes. A plethora of colour options make this range, a first of its kind to pamper the little ones, in stylish and fun way.

IMAGINATION IS A LITTLE JUNGLE OF POSSIBILITIES.
WE BRING IT ALIVE IN EVERY CHILD'S SPACE.

COCOON SURF IN

The Surf In range of kids restroom cubicles are delightfully different from anything seen so far. A first of its kind, these sporty themed cubicles, bring in the punch and panache to what has always been thought to be a "no-go" zone for the young and restless.

The digitally printed, sturdy sports themed panels give a zingy oomph to restroom spaces. The only range to have a twin leg mounted mid panel with zero frontal coverage, gives high ground clearance, while the designer dividers adds to the style and an open skyline. Curved delicately to ensure child safety, and fitted with premium fixtures that are child friendly, the Surf In range can easily be declared the "man of the match"!

FOR THEM, THE SEA IS A PLAYGROUND.
WE LET THEM SURF AROUND ALL THEY WANT.

CUBICLES FOR SPECIALLY ABLED

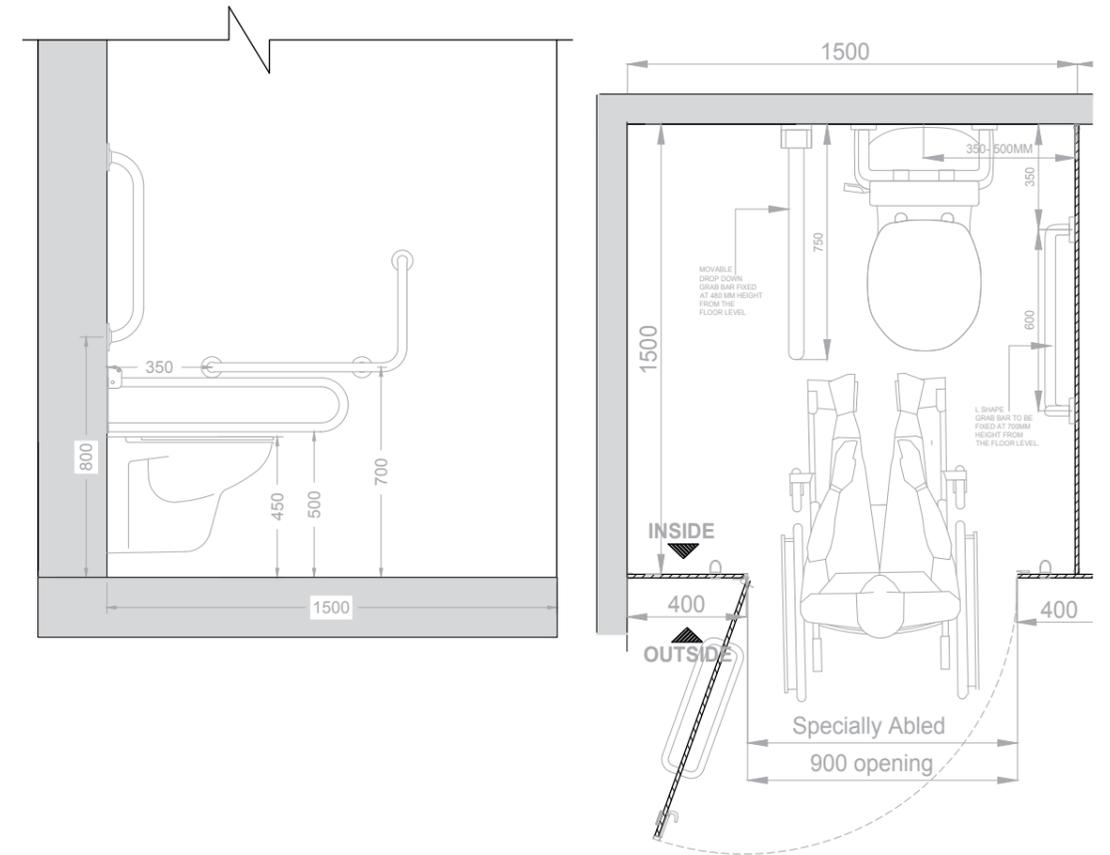

Greenlam Sturdo Cubicles also enable customized design for effective support & assistance for specially abled. These spaces are designed using special fixtures like - grab bars, guide railings etc.

Ergonomically designed, Hand Holds collection is an arrangement of flexible tubes and connectors that provides customised and creative designs for guide railings, support bars, handrails and stairways. These products are produced of anti-corrosive nylon fixtures along with high quality aluminum fittings. To provide extra support and safety, vertical and horizontal application options along with left and right handed product versions are made available. It gives utmost advantages like hygiene, easy maintenance, anti-static surface and durability.

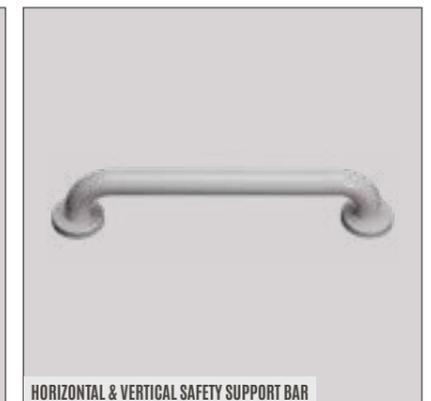

These heavy duty grab bars are manufactured in accordance to ADA [Americans with Disabilities Act, 1990] guidelines for providing stability and extra assistance.

ALTURA VANITY

WHILE YOU PAY ATTENTION TO YOURSELF
WE MAKE SURE YOU STAY COMFORTABLE.

The Altura Wash-n-Bin Vanity areas from house of Greenlam are a first of its kind when it comes to smart and sturdy vanity solutions for restrooms. The range is not just resistant to humidity and hot water damages but have been designed meticulously, keeping in mind many considerations like bottle traps, concrete and stone counters, commonly found today in restrooms.

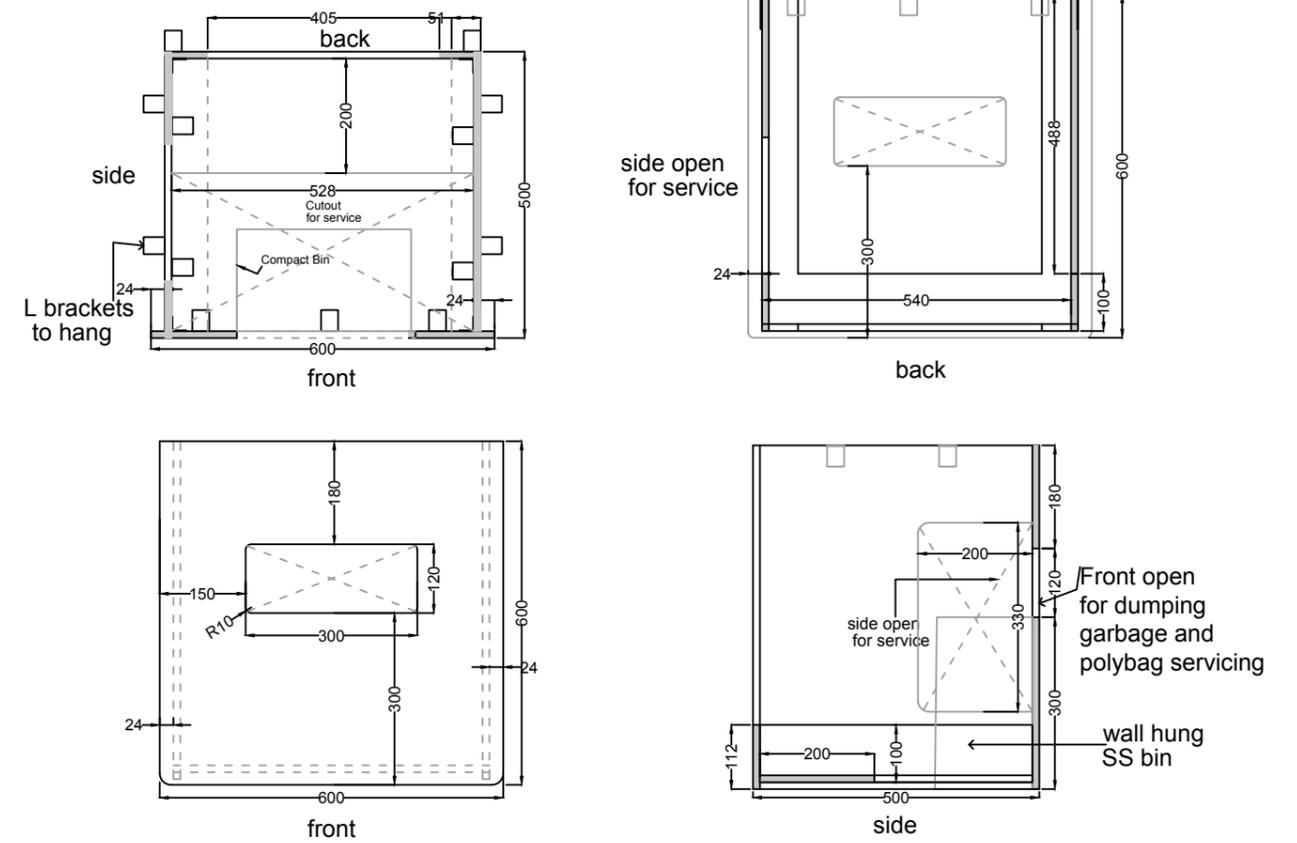

These cuboid shaped HPL Laminate bins fit neatly under the washbasins, to help throw trash, while the cover head ensure the overall look is seamless and smart. The unique Altura vanity range ensures that your customers never have to take their eyes off the mirror, as every unit is so within reach, hygienic and designed with comfort in mind.

BACKWALL PANELLING

BACKWALL PANELLING

The Greenlam Sturdo Restroom Cubicles come with stylish and practical backwall panelling solutions from its Altura range, that make the cubicle water resistant, durable, and aesthetically appealing.

The Backwall panelling solutions are made of HPL Compact, that do not allow water to corrode the walls or the core rest room structure. Scientifically designed, these panels can be installed on the back wall up to the ledge or all along the height of the divider, on the both sides of brick walls and even on back walls of urinals. These panels do the dual task of giving an aesthetic appeal, while protecting the cubicles from plumbing line leakages or any sort of water damage. 12mm thick compact laminate are used for Dividers panels and Shelves for keeping bags which are fitted with durable U/ F profiles to fix with the wall and mounted on the Leg.

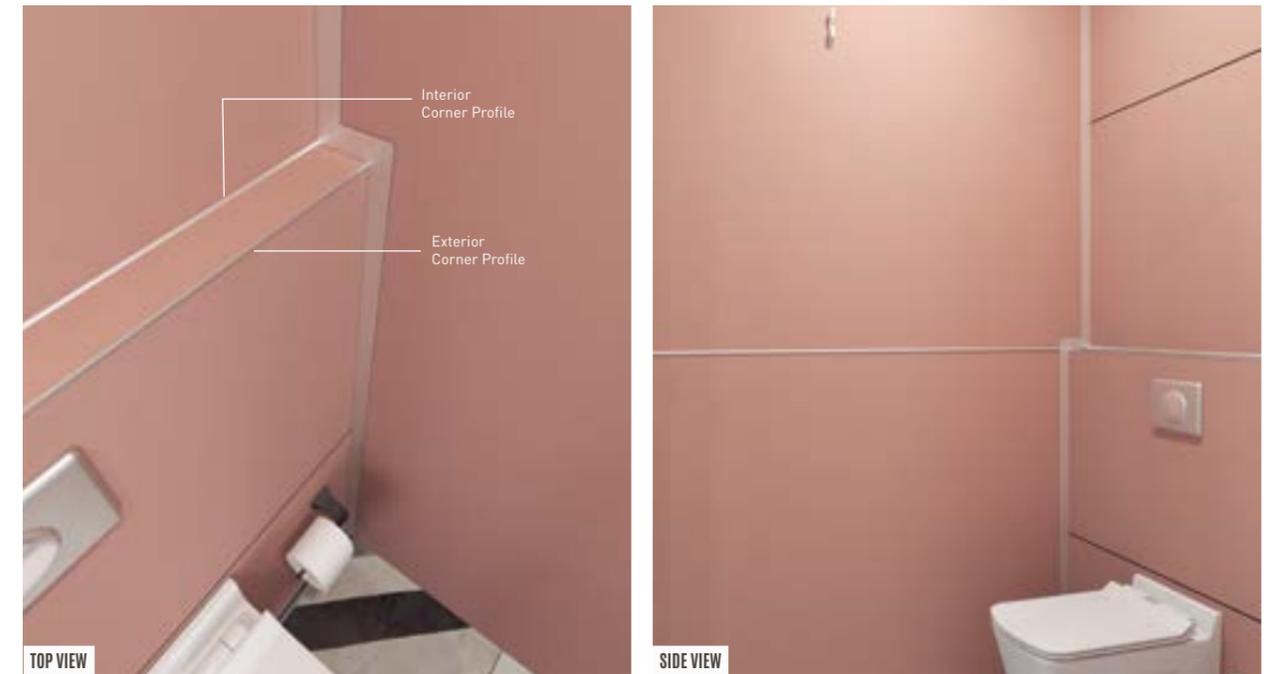

FINESSE IS NEVER A STRESS
REMOVE, FIX AND JUST USE IT.

BACKWALL PANELLING

BACKWALL PANELLING DETAILS

BACKWALL PANELLING AT A GLANCE

It is a wall protection system in which various Aluminum profiles form a strong frame that can hold 9mm thick compact panel with the help of interlocking mechanism for better grip. The total panel thickness of 16mm is installed with the help of Aluminum grade 6063 -T6 profiles and are designed in such a way that they are not visible from the front but only from the top, bottom and corners

WHERE CAN THEY BE INSTALLED.

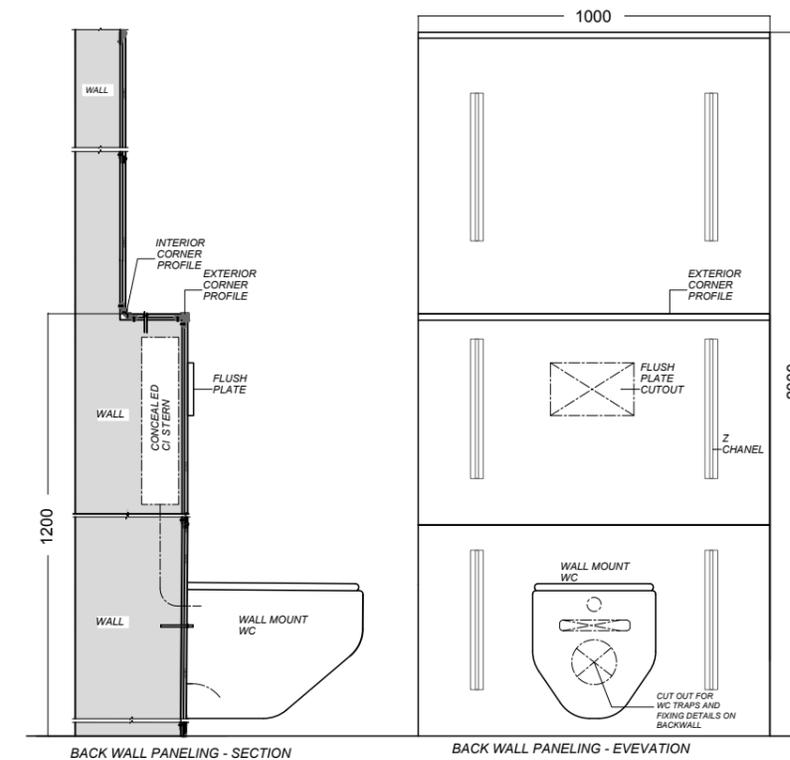

Backwall panels can be used in restroom cubicles in the following manners or in different combination of all the following options:

- Covering only the ledge wall part of the restroom back wall
- Covering the restroom back wall up to the height of the divider
- Covering the back wall at the back of Urinals.

FEATURES

- Wall cladding system for wet and dry restroom areas.
- Easy to Install and maintain.
- Easy to access the wall, whenever required for servicing.
- Designed with minimal intermediate joints for seamless look.
- Available in wide range of designs and colours.
